

Application No. 09/683,658  
Reply to Office Action of April 4, 2005

121655-1

**Amendments to the Specification:**

Please replace paragraph [0028] with the following paragraph:

"The self-pressurizing capsule and methods of filling and sealing the self-pressurizing capsule are described in more detail in United States Patent Application No. 09/683,659, filed on January 31, 2002, by Mark Philip D'Evelyn, et al., entitled "High Temperature High Pressure Capsule for Processing Materials in Supercritical Fluids", which is incorporated herein by reference in its entirety."
